Once called "Cala de lo ferro" "the iron bay" for its iron extraction origins, Innamorata is a sandy beach. On both sides are wonderful rocky cliffs, excellent for who enjoys fishing.

The morphological conformation of the territory allows the sea to increase depth rapidly rendering the water limpid and rich of a variety of fishes to spot! Who enjoys relaxing and tanning can simply take a towel to the beach or choose amongst the comfort of parasols, deck chairs, deck beds, pedal boats, that

are offered by two lifeguards at advantageous prices to our guests.
